3M™ PELTOR™ CH-5 High Attenuation Headset

Communication headset with highest SNR on the market*

3M™ PELTOR™ CH-5 High Attenuation Headset

Hearing protection for communicating with external communication devices.

You have two great reasons to protect your hearing – your only two ears. The CH-5 Headset employs the latest technology to help provide protection against hazardous levels of noise including impact sounds. The robust headset is designed to be used in extreme and rough environmnets with high noise.

*As of October 2016

3M Science. Applied to life.™

Hearing protection and communication

The 3M™ PELTOR™ CH-5 High Attenuation Headsets offers an SNR value of 37dB and helps provide very good impact sound protection. The CH-5 High Attenuation Headsets offers a newly developed watertight boom microphone with improved noise cancellation as well as compatibility with existing 3M™ PELTOR™ Adapters. Smart construction enables easy and fast maintainence even out in the field.
